

# MONSTER Truck

The new MONSTER Truck tyre line 2006 has been completely renewed and set up after many intense tests carried on the market in US. All has been carefully studied at best, to guarantee the highest performance in any condition, for drivers who run only for leisure. All tyres are available donut complete with their moulded foam insert, or glued on GRP chromed wheel.

## NEW COMPOUNDS

They are made with a special technical process. They have been improved remarkably for both grip and duration, guaranteeing the highest performance for both competition and leisure.

## GLUING SYSTEM

Made through automatic robots, using special gluing materials, which guarantee a 100% perfect hold at any temperature of use.

## NEW WHEELS

They are made with a special plastic material, guaranteeing the highest performance at any temperature of use. GRP wheel is chromed with a 14 mm hexagon and it is suitable for all best RC models present on the market.

## MOULDED FOAM INSERT

Made through transfer moulding, with a special expanding material, it doesn't deform at any temperature of use, guaranteeing always an even density.

DONUT Tyres - SOFT Compound	GGO1C	GGO4C	GGO6C
Chromed Wheel - SOFT Compound	GGYO1C	GGYO4C	GGYO6C
WHEEL Hexagon	14	14	14
TYRE Width	84	84	84
TYRE Diameter	139	139	150
TYRE Use	Asphalt	Competition	General
